

**PUBLIC NOTICE-CUSTOMERS OF  
DENT PHELPS ELEMENTARY SCHOOL  
FAILURE TO MEET MICROBIOLOGICAL REPORTING  
REQUIREMENTS FOR DRINKING WATER**

**Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.**

We are required to monitor your drinking water for specific contaminants on a regular basis. We utilize the services of an independent state certified laboratory to analyze bacteriological samples for compliance for our water system. We are required to report these sample results to the Missouri Department of Natural Resources (department) by the 10<sup>th</sup> day of the following month. For the **August 2024** monitoring period, we failed to report the results to the department in a timely manner. This is a violation of Missouri Public Drinking Water Regulations.

Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation. Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or by distributing copies by hand or mail.

Provide explanation of cause of reporting failure:

Did not receive the water results before the 10th of the following month. August 2024 results were absent of contaminants.

For more information, please contact water system staff indicated below:

Vicky Brooks at 573-729-4680 or 27870 Hwy C, Salem Mo 65560  
(name of water system contact) (phone number) (mailing address)

*Additionally, you may contact the Department's Southeast Regional Office at 573-840-9750 or Public Drinking Water Branch at 573-526-6925.*
